

13th Annual FMMS User Conference 2005 "THE BIG DRY" Sydney Australia

**The NSW FMMS User Group
and Eden Technology invite delegates to
attend the 13th Annual FMMS User
Conference 2005 to be held in Sydney
Australia.**

In today's commercial and very public environment, organisations are looking closely at their triple bottom line management. All too often opportunities are realised in their non-core business of maintenance: but have these organisations got it right? Should maintenance be seen as non-core business in 2005 and beyond?

The rising cost of water and energy, and the ever increasing focus on environmental management is placing additional pressure on the maintenance dollar. Organisations that haven't previously given water, energy and environmental management sufficient attention are now realising funding shortfalls, and in some cases are less competitive.

Top 4 compelling reasons to attend:

Improve Your Maintenance Management with FMMS 4.2

Learn how other leading organisations are successfully using FMMS with emerging utility infrastructure maintenance and environmental management. Employees of these organisations will be there to share their experiences with you first-hand.

Build Relationships with Other FMMS Users

This annual event provides a mix of experts, users, and industry leaders with unique FMMS insights and experience. Network with them and the FMMS founder, Kevin Ramsey, talk with the FMMS developers and meet industry luminaries. This is the perfect opportunity to make the personal connections to help you and your business.

Get Detailed Insight into New Features of FMMS 4.3

The FMMS development team will provide detailed insight into the new features in FMMS 4.3, including embedded Risk Management Module, and improvements to the Field Services Module.

Be Part of a Collective Voice.

Location:

To be held at The Sebel Pier One Sydney on the 24th & 25th of October 2005. Offering outstanding views of the Sydney Harbour Bridge and Walsh Bay combined with style and sophistication, provides us with more spacious and convenient accommodation for the conference and greater availability of sleeping rooms.

The Sebel Pier One Sydney is built on and over the water - one of the most exciting spots in Sydney! There are an unlimited number of things to see and do and the hotel is a short walk to a number of ethnic restaurants and shops.

Call for papers & Expressions of Interest:

Previous conferences have been successful largely due to the willingness of the participants to actively be involved and to submit papers at the conference. The Organising Committee hereby invites expressions of interest and submission to prepare papers addressing the conference theme. We would welcome your input if you have any specific items you would like to be considered for inclusion at the conference.

The best paper will be presented with an award.

Deadlines for Expressions of Interest are 19th August 2005.
